FishSoc UNSW Term Activity Schedule

Week	Planned activity	Student involvement and learning
Week 1	Fishing 1: Welcome to shore fishing (The Bread&Butter Basics) About 3 hours	Introduce club expectations and local site boundaries; demonstrate knots, tackle setup and casting on land, then run a beginner shore session. Student contributors welcome newcomers, lead the briefing, buddy participants and manage gear. Save the event plan, briefing and helper-hour records.
Week 2	Fishing 2: Conditions and site awareness About 2 hours	Review weather, tides and site access before a supervised shore session. Contributors prepare the meeting point and go/no-go check, explain how conditions shape a safe session, and help participants practise basic observation and catch recording.
Week 3	Fishing 3: Rigs and beginner setups About 3 hours	Run a practical knot and simple rig session on campus followed by a competition testing knots. Contributors prepare demonstration kits, coach small groups.
Week 4	Fishing 4: Species identification and responsible practice About 1 hour EGM 1: Member proposals for the remaining term 45–60 minutes, separate day	During the fishing session, practise identifying local species using current official guidance and discuss responsible handling and release where appropriate. Separately, hold EGM 1 to consider a specific, properly notified member proposal about the remaining term program or club priorities. Issue the EGM notice at least 14 days beforehand.

Week 5	Fishing 5: Casting and peer coaching About 3 hours	Use a land-based casting practice before the fishing session. Contributors set up safe stations, demonstrate safe spacing, pair beginners with a buddy and gather short feedback for the next event.
Week 6	Fishing 6: Flexibility week, Fishing Outing/Competition About 7 hours	Contributors prepare accessible instructions, sponsorships, support equipment use and complete pack-down and line/litter checks. And run the competition in a safe manner.
Week 7	No scheduled activity	Exam-heavy week: no required event or meeting.
Week 8	Fishing 7: Skills challenge and catch recording About 2 hours EGM 2: Member proposals for the next term 45–60 minutes, separate day	Run a friendly skills-focused session using knot, setup or casting stations; keep any challenge focused on learning rather than catch volume. Separately, hold EGM 2 to consider a specific, properly notified proposal about next-term activity priorities or another member motion. Issue notice at least 14 days beforehand.
Week 9	No scheduled activity	Exam-heavy week: no required event or meeting.
Week 10	No scheduled activity	Exam-heavy week: no required event or meeting.
Weeks 1 - 10	Fishing 8: Online Fishing Competition About 5 Hours in total of management	Run an online Fishing competition where members can post their catches and compete for the biggest/ mystery length catch. Have different quests each week that can boost the score that you would get.

EGM planning and notice

Meeting	Notice target	Draft purpose and agenda
EGM 1 Week 4	Send by Week 2 or earlier; at least 14 days before the meeting.	Purpose: decide a member proposal about the remaining term program or club priorities. Agenda: confirm quorum; explain the notified proposal; discuss and vote on the motion; record actions and responsible people.
EGM 2 Week 8	Send by Week 6 or earlier; at least 14 days before the meeting.	Purpose: decide a member proposal about next-term activity priorities or other notified business. Agenda: confirm quorum; consider the motion(s) listed in the notice; discuss and vote; record outcomes and handover actions. Include any election only if it is specifically notified.

Break-period event ideas

Break event	Format and student contribution
Gear care and knot clinic | 2 hours	Indoor practical session to inspect and organise shared tackle, practise knots and prepare beginner kits.
NSW fishing rules and species ID workshop | 2 hours	Small-group activity using current official guidance, scenario cards and a short identification exercise.
Beginner shore-fishing outing | 3 hours	Weather-dependent, supervised session at an approved, accessible site with a beginner briefing and buddy support.
Foreshore clean-up and fishing-line audit | 2–3 hours	Collect litter safely, separate discarded line for appropriate disposal and record common waste items for future prevention.
Inter-club shore skills day | half day	Optional collaboration with another society, and brainstorm event ideas.

Example 20-hour contribution pathway

Contribution block	Example hours	Countable work
Training and role induction	2	Complete required training; review duties, event safety and hour logging.
Planning meetings	4	Attend four one-hour meetings and complete assigned follow-up tasks.
Event delivery	12	Help plan, brief, supervise and pack down four three-hour fishing activities.
Preparation and records	2	Prepare gear or participant information and complete evidence/debrief records.
Example total	20	Count the individual’s actual time once; retain task and verifier evidence.
